

**SEV-REND®** | HIGH-PERFORMANCE  
PACKAGING

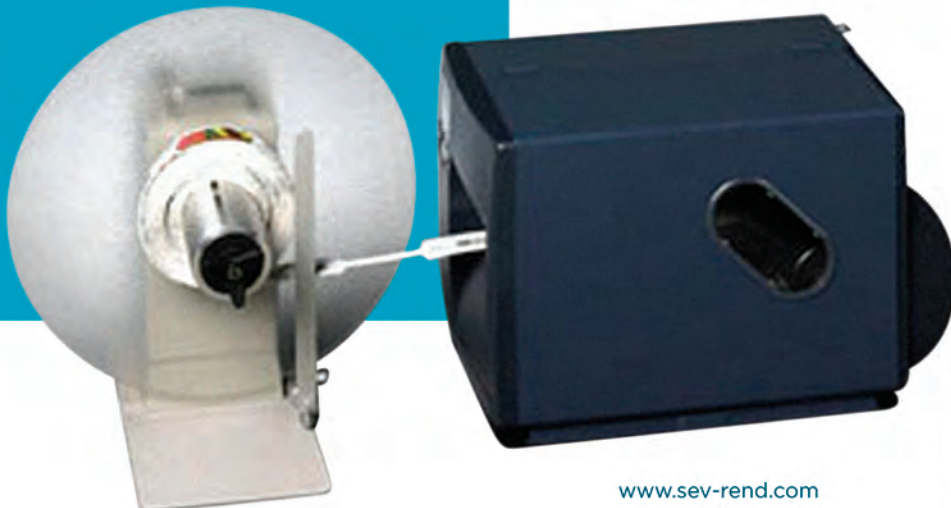

## Thermal Print Large Rolls On Demand!

These versatile printer systems allow you to direct thermal print essential product information on your custom tags:

- UPC codes
- Date codes
- Expiration dates
- Shipper information
- Country of Origin

## Thermal Print Small Rolls On Demand!

## Features & Benefits

Engineered to last, this printer is built on a precision-crafted, die-cast aluminum frame that's light weight yet rugged.

- Ribbon and media supply and take up hubs make loading a breeze
- Change the print head and the platen roller in less than 5 minutes
- Standard bi-directional parallel and high-speed serial interfaces allow easy integration into your system
- Optional USB, Ethernet and Twinax/Coax support allows the printer to connect to virtually any host system environment
- Available with unwind/rewind stand and software

LABEL DISPENSERS (other side) ►

## Sev-Rend LABEL DISPENSERS

Sev-Rend's line of manual and semi-automatic label dispensers are versatile, high-quality tools that help you perform repetitive labeling in a fraction of the time required of hand labeling.

**Model 7000  
Hand Dispenser**

These Handheld Label Dispensers accommodate a maximum label roll size of 3.93", with a minimum label repeat of .78" and a maximum label repeat of 2.36".

- Will work with any die-cut or butt-cut labels of any size, shape or material
- Equipped with unique sensor which automatically adjusts the stroke of the trigger
- Available in 3 sizes for different widths of labels

### **Semi Automatic Dispenser**

Sev-Rend 7404 Semi-Automatic Dispenser can feed all types of labels. This high performance dispenser accommodates a maximum roll diameter of 9" with a minimum label size of 3/8"w x 5/8"l and a maximum size of 6"w x 12"l.

- Peels, releases and advances all types of butt-cut and die-cut labels
- As the next operator removes one label, the next one automatically dispenses
